

**Lightweight, Thin Thermal Labels (Top Coated)**

Get the most out of your B-EP portable printer with the Toshiba LT Series of labels, suitable for all your information labelling applications.

The LT label range is made from thin thermal material. All products are top-coated, provided best-of-class quality, and are supplied on coreless rolls.

This top and bottom barrier coated, smudge-proof, chemi-thermal paper with permanent adhesive is suitable for use in demanding environments requiring high-sensitivity performance.

The inks used in the printing process are formulated using non-toxic materials and are approved for use in both food and pharmaceutical environments.

**Benefits**

The thin material maximises the number of labels per roll – typically 25 % more than standard material. More labels per roll means less roll changes, downtime, and wastage weight. Ideal features for any portable printing application.

Coreless rolls further help maximise the number of labels per roll and significantly reduce wastage volume and weight. On top of that, they ensure a safer workplace by eliminating carelessly discarded cores.

Specifications			
Substance	57 g/m <sup>2</sup>	Brightness	76 %
Calliper	60 micron	Smoothness	200 Bekk seconds
Scanning	Visible red light	Static image	1.25 min
Imaging colour	Black		

The Toshiba LT Series has a shelf life of up to 10 years if stored under the following conditions. Thermal printout can be read for up to 10 years, if printed and stored under the following conditions:

Storage

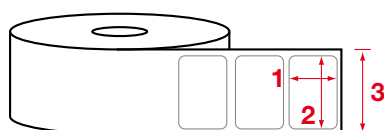

Temperature	20 °C ± 5 °C	Relative humidity	60 % ± 10 %
Storage	Dark storage, no direct sunlight / UV light		
Avoid damp or hot conditions. Avoid contact with discolouring agents such as PVC film containing plasticizer.

All stock is wound face out on 12 mm ID coreless rolls with a max. OD of 60 mm.

## Testing

We strongly recommend testing under actual conditions to ensure best suitability. Samples and testing advice are available on request.

## Warranty

All products are warranted suitable for their intended purpose for 12 months from date of manufacture if stored and used according to recommendations. Any reference to longer shelf life is intended as a guide only.

Our recommendations are based on information supplied by our converting partner and our most up-to-date knowledge and experience. All technical and best-of-life storage information as supplied by the label manufacturer. TOSHIBA TEC Europe Retail Information Systems does not assume any responsibility for any damage caused by the use of this product.

## Printhead Warranty

Protect your printhead warranty: Toshiba recommends using Toshiba approved consumables on your B-EP printers to satisfy the warranty conditions.
